LIQUID BRIDGE OPTIONS – JOHN DEERE P600 DRILL

This factory assembled Liquid Bridge mounts directly to the P660, P670, P680, and P690 Drill chassis. It is designed to add capacity and flexibility, helping customers boost productivity to meet tight seeding windows.

Pair with a John Deere's Liquid Dealer-Fit C-Series carts (C500, C550, C650) in both leading and trailing configurations—delivering a true plug-and-play liquid delivery solution.

UPSCALING liquid capacity of the C650 (4800L to 8800L) and C500/550 (3720L to 7720L)

Liquid Systems (SA) will supply the dealer with the Liquid Bridge to John Deere dealers install onto P600 Drill before delivery to the farmer. Stacker Distribution Kits are not included.
